Important Information:

- Installation at the gate (inside each metal cabinet) must be installed when connected to an external antenna (an antenna outside the cabinet).
- Requires stable power supply source preferably DC transformers.
- Avoid installation in metal boxes.
- Protect the unit from humidity and insect infiltration.
- The system works via a cellular network using 3G technology. In addition, the system's performance is dependent on the
 existence of coverage for a 3G service. Pal Electronics Systems Ltd. is not an end-user to cover the service of the cellular
 networks. The customer is responsible for ensuring that there is cellular network reception using 3G technology.
